

### A Message from the Dean

**Dear TBS students**

I hope you are all safe and in excellent health conditions as well as your relatives and friends.

While we all keep in the confinement at the time the world faces this disastrous Covid 19 pandemic, we shall not be passive or lazy. We would like to keep going with our educational goals and be sufficiently ambitious to save this academic year. Many brave people have already worked day & night inside and outside TBS to operate various e-learning platforms and to register faculty and students to gain access and to enable the online teaching/learning to take place. Instructors worked hard to adapt their teaching methods and tools to these platforms. Certainly many students feel frustrated and find it difficult to engage in such a new way of education. But this shall never be the case of TBS students. Not only because you already have the skills and know-how, but also because you are the most brilliant students in the country. You have always shown to the world that you are of very high caliber; that you are hyper active, fully dedicated to your work, and you can overcome any difficulties you may confront. So, let us raise together the challenge of saving this academic year. Let us collaborate, share information and experiences and surpass any barriers.

**Yes we can make it!!**

**Naceur Azaiez,**

**Dean of TBS**
