

Scope of The Master

Are you looking for a career in a rapidly expanding sector? Keen to work in an innovative global industry where your skills are in demand? With the rise of disruptive technologies and the new generation of Big Data and FinTech, concepts of money, payments, identity, and security need to be looked at through a new lens, so how can finance professionals respond early and effectively to ride the wave, and take advantage of the new opportunities before it is too late? The answer is easy: Financial Technology "Fintech" is the Solution.
